ABSTRACT

The tenth annual report of the student financial assistance programs administered in Connecticut offers statistical data on the following programs: state scholarship programs for undergraduate and graduate awards, Restricted Educational Achievement Grant Program, College Continuation Grant Program, Higher Education Grant Program, and Connecticut State Work-Study Program. It is concluded that the State Scholarship Commission continues to be responsive to rapidly changing conditions and trends affecting Connecticut students who wish to continue their education beyond the postsecondary years. TO: Her Excellency, Ella Grasso, Governor of the State of Connecticut

FROM: The Connecticut State Scholarship Commission

The Connecticut State Scholarship Commission is pleased to present this tenth annual report of the student financial assistance programs administered under the provisions of Section 10-116b through Section 10-116h of the General Statutes. These programs are as follows:

1. STATE SCHOLARSHIP PROGRAM - UNDERGRADUATE AWARDS
2. STATE SCHOLARSHIP PROGRAM - GRADUATE AWARDS
3. RESTRICTED EDUCATIONAL ACHIEVEMENT GRANT PROGRAM
4. COLLEGE CONTINUATION GRANT PROGRAM
5. HIGHER EDUCATION GRANT PROGRAM
6. CONNECTICUT STATE WORK-STUDY PROGRAM

STATE SCHOLARSHIP PROGRAM - UNDERGRADUATE AWARDS

(Section 10-116b; 10-116c; 10-116d)

For the 1974-1975 academic year, 7,457 secondary school seniors applied to the State of Connecticut Scholarship Program. From these applicants, approximately 2,500 semifinalists were identified on the basis of their academic achievement and were designated Connecticut Scholars. Each of these Scholars was asked to submit a Parents' Confidential Statement, and priority for the actual tender of awards was given to students from families who were least able to provide financial assistance. All renewal applicants also submitted financial information.

A total of 2,405 awards were granted, including 898 freshman awards and 1,507 renewal awards to upperclassmen, this latter group containing a few Connecticut Scholars of earlier years who were granted awards.

As in the past stipends ranged from $100 to $1,000. Additional statistics on the comparative growth of the program, the distribution of awards to both new students and renewal students, average stipends, amounts awarded, and other information are contained in Tables I through IX.

Recipients of the new awards for 1974-1975 are residents of 171 Connecticut communities (see Table IV). Approximately 52% of the new awardees are attending institutions of higher learning in Connecticut, and 48% are attending colleges and universities in 30 other states (see Table V). Students attended a total of 179 institutions in 31 different states. Of the 469 students enrolled in Connecticut institutions, 312 (approximately 67%) are attending public institutions, including the state colleges, the community colleges, the state technical colleges, and the University of Connecticut. Approximately 54% of the new awardees attending institutions of higher education in Connecticut are enrolled at the University of Connecticut.

Trends in the attendance patterns of new awardees are indicated in the following tabulation:

	Out-of-State	In-State	In-State Private	In-State Public	% of In-State Awardees Attending UConn
1970-71	57%	43%	41%	59%	49%
1971-72	39%	61%	20%	80%	67%
1972-73	41%	59%	24%	76%	73%
1973-74	45%	55%	36%	64%	50%
1974-75	48%	52%	33%	67%	54%

In addition to new awards, 1,507 renewal awards were also made as of December 1, 1974 (see Table III).

Comparative statistics on the growth of the State Scholarship Program since 1970 may be seen in Table IX.

STATE SCHOLARSHIP PROGRAM - GRADUATE AWARDS

(Section 10-116e)

For the 1974-1975 academic year, 470 applications for graduate awards were received. Of that number, 146 new awards and 109 renewal awards were granted. Stipends ranged from $100 to $1,000, and the total amount allocated for graduate awards was $187,737. Graduate students attended a total of 61 different institutions located in 23 states (see Table X).

RESTRICTED EDUCATIONAL ACHIEVEMENT GRANTS

(Section 10-116h)

Under this section of the General Statutes, grants are provided to "potentially capable students whose educational achievement has been or is being restricted by economic, social or environmental disadvantages." Provision is made for institutions participating in this program to submit applications for awards ranging from $100 to $1,000 to be used on behalf of students for tuition, fees, books, board and related educational expenses. Awards may be made for full-time or part-time study and for pre-college programs.

For 1974-1975, the REAG Program was funded in the amount of $281,677. A total of 33 institutions participated in the program and awarded grants to 559 pre-college, full-time and part-time students, both new and renewal. Tables XI and XII contain additional information on this program.

COLLEGE CONTINUATION GRANT PROGRAM

The College Continuation Grant Program initially was implemented in 1972-1973 to provide support to students already enrolled in college and demonstrating good academic achievement, and in need of financial assistance in order to continue or to complete their studies.

Each institution's proportionate allocated share of College Continuation Grant funds was the same as its proportionate share of the Federal Educational Opportunity Grant (OEG) funds allocated to Connecticut.

Guidelines for awarding grants to students stipulate that recipients must be Connecticut residents enrolled or accepted for enrollment as full-time or part-time students in a program of study leading to an associate or bachelor degree at any post-secondary school, college or university located in this state, and approved by the Commission for Higher Education. The maximum annual award to a full-time student may not exceed $1,000; the maximum annual award to a part-time student carrying six semester hours of credit may not exceed $400, and for a part-time student carrying three semester hours of credit, $200. The guidelines also stipulate that any student who is receiving financial assistance under the State of Connecticut Scholarship Program, the Higher Education Grant Program, or the Restricted Educational Achievement Grant Program may not simultaneously be eligible for assistance through the College Continuation Grant Program.

For 1974-1975, the sum of $218,542 in state funds was allocated to this program. This amount was supplemented by federal funds allocated to Connecticut through the State Student Incentive Grant Program.

A total of 37 institutions shared the total College Continuation Grant allocation of $310,029 for 1974-1975. Grants were awarded to 717 students. Approximately 56% of the funds went to students attending public institutions; 44% to students attending independent colleges and universities. Additional information on the College Continuation Grant Program may be found in Table XIII.

HIGHER EDUCATION GRANT PROGRAM

The Higher Education Grant Program was initially implemented during the 1974-1975 academic year. Eligibility to apply for a Higher Education Grant is open to any high school senior who (1) is a U. S. citizen or taking steps toward becoming a citizen; (2) has been a resident of Connecticut for at least twelve months immediately prior to application; (3) ranked in the upper 70% of his class at the end of his junior year in high school; and (4) has been accepted for study in a degree program in any institution in the United States approved or accredited by the Commission for Higher Education. Priority for awards is given to students whose families can afford to contribute the least toward the cost of a college education.

Because notification of the allocation of funds for this program was not received until late summer of 1974, it was not possible to process applications through the secondary schools in time to award grants for the first semester of the 1974-1975 academic year. Consequently, applications were processed during the fall semester, and awards were granted applicable to the second semester only of 1974-1975. It was hoped that renewal awards to be granted during 1975-1976 could be full-year awards, applicable to the entire academic year.

For 1974-1975, 793 students received second semester Higher Education Grants, averaging $335 each. A total of $266,750 was distributed to students attending public and private institutions of higher learning throughout the country. Federal funds received through the State Student Incentive Grant Program represented half of the funds distributed through the Higher Education Grant Program.

CONNECTICUT STATE WORK-STUDY PROGRAM

Public Act 200 (1972) provided that the State Scholarship Commission "shall, in cooperation with the public and private postsecondary institutions in the state, develop a work-study program through which students may be employed on a part-time basis in state-supported programs operated by local and regional boards of education, municipalities and nonprofit organizations, and programs operated by the institutions in which the students are enrolled."

For 1974-1975, the sum of $267,593 was allocated for this purpose. This allocation was distributed to students through Connecticut degree-granting institutions currently participating in the Federal College Work-Study Program. Each institution's proportionate share of state work-study funds was the same as its proportionate share of the Federal College Work-Study funds allocated to Connecticut. Thirty-three institutions participated in the program. Approximately 60% of the funds were distributed to students attending Connecticut public institutions of higher education; 40% to students attending independent institutions. See Tables XIV and XV for additional information on this program.

STATE STUDENT INCENTIVE GRANT PROGRAM

Pursuant to Part A, Title IV, of the Higher Education Act of 1965, as amended, the U. S. Office of Education developed in 1974 a State Student Incentive Grant Program. The purpose of that program is to make incentive grants available to the states to assist them in providing grants to eligible students with substantial financial need to enable such students to attend or continue to attend institutions of higher education.

On May 28, 1974, the Commission for Higher Education, on behalf of the State Scholarship Commission, applied to USOE to participate in the State Student Incentive Grant Program for the period July 1, 1974 to June 30, 1975. An initial allocation of $268,249 was made to Connecticut on June 20, 1974; subsequent allocations of $15,838 (August 1, 1974) and $21,530 (April 21, 1975) brought the total state allocation to $305,617 for the 1974-1975 academic year. This allocation was used to supplement state grants awarded through the Higher Education Grant Program, the College Continuation Grant Program, and the Restricted Educational Achievement Grant Program. A total of 1,553 students received grants funded through the State Student Incentive Grant Program. Additional information on the distribution of SSIG funds is included in Tables XVI through XVIII.

GENERAL COMMENTS

The State Scholarship Commission continues to be responsive to rapidly changing conditions and trends affecting Connecticut students who wish to continue their education beyond the post-secondary years. In this endeavor, it appreciates the cooperation and assistance of public officials, financial aid officers, guidance counselors, students and their families, and all others concerned with higher education.

It is sincerely hoped that the Governor will soon appoint persons to fill the three long-standing vacancies which currently exist on the State Scholarship Commission.

Respectfully submitted,

Alvin B. Wood

Alvin B. Wood
Chairman
